# My Life's Journey as a Researcher and Beyond

## Our Guest Speaker

**Dr. Ronnie Serfa Juan**

Researcher,  
Intelligent Construction Automation  
Research Center,  
Kyungpook National University,  
South Korea

## Abstract

I will discuss Technical topics based on my journey from the Philippines, Japan then South Korea.

## Brief Biography

- Bachelor of Science in Electronics and Communications Engineering -Technological University of the Philippines
- Master of Science in Global Information and Telecommunications Studies, Major in Computer System Engineering and Network under the Japanese Scholarship Program at Waseda University.
- Ph.D. in Electronic Engineering, Major in Computer and Control under the Korean Scholarship Program at Cheongju University, South Korea
- A registered ASEAN Electronics Engineer

## Field of Specialization

Machine Learning, Internet of Things (IoT) and Radio Frequency Identification (RFID) applications, analog and digital electronics circuits, sensor and embedded electronics implementations, Healthcare applications, Controller Area Network and FlexRay implementations and Engineering Research

## Chairperson

**Dr. Ye Kyaw Thu**  
(Lab. Leader)
